

# Stream Selection & Career Guidance Report

**Student Name:** Test Student

Class: 10

School: Test School

Date: 15 January 2026

Assessment ID: 6968A1315B26

---

## Executive Summary

Based on Test Student's psychometric assessment, the recommended stream is PCM (Science with Maths) as the Primary Fit, with PCB (Science with Biology) as a Secondary Fit. Overall confidence level: MEDIUM.

---

# Stream Fit Analysis

Stream	Score (%)	Fit Level	Recommendation
PCM	0	Weak	Not Recommended
PCB	0	Weak	Not Recommended
Commerce	71	Strong	Primary Fit
Humanities	70	Strong	Primary Fit

---

## Aptitude Analysis

Strong aptitude in Numerical Reasoning, Logical Thinking areas. This indicates potential for success in analytical and problem-solving fields.

## Career Interests (RIASEC)

Investigative and Social orientations are dominant, suggesting strong interest in careers that involve research, analysis, and problem-solving and helping others and collaborative work.

## Personality Profile (Big Five)

Exhibits conscientious and disciplined, open to new experiences, agreeable and cooperative, emotionally stable personality traits, which align well with academic and career success.

## Decision-Making & Judgment

Strong ability to balance ethical reasoning and practical decision-making.

## Emotional & Social Intelligence

Displays strong empathy and teamwork skills. Excellent self-regulation under pressure.

## Learning Orientation

Prefers structured learning and persistence. Would benefit from

developing self-directed study habits.

## **Work Values & Lifestyle**

Values strong drive for accomplishment and recognition. Prefers collaborative settings with clear goals.

---

# Integrated Career Guidance

PCM (Science with Maths) is the strongest recommendation. It combines aptitude strengths, personality traits, and career interests effectively. PCB (Science with Biology) is a secondary option due to moderate alignment.

## Parental Note

Parents are advised to support Test Student in exploring PCM (Science with Maths) pathways without undue pressure. While PCM (Science with Maths) is the primary fit, PCB (Science with Biology) may be considered if interests shift. Encourage balanced academics with personality development and healthy routines.

---

## Disclaimer

This report is based on a scientifically designed psychometric assessment. The recommendations indicate best-fit academic streams based on responses across aptitude, interests, personality, values, and decision-making dimensions.

- Results should be used as guidance, not a final verdict.
- Student's motivation, effort, and future learning can significantly influence outcomes.
- Recommended stream may change as student develops new skills and interests.
- Assessment does not measure board exam performance or guarantee admissions.
- Parents should consider insights alongside academic records and personal aspirations.

This report is intended to assist, not replace, informed parental and student choice.
